Digital Transformation, Industry 4.0 and Human Resources Management: Innovative skills to enhance HE students' employability, flexibility and transversal capabilities

Partner Meeting in Tenerife, Spain:

The fourth partner meeting for the project was held on 18-19 January, 2024 in Tenerife, Spain. The partner meeting started with session dedicated to the project management and financial matters. In the following sessions partners discussed the Results of the project – finalization of the Methodology of Res 2, the development of Res 3 – Learning contents, workplace guidelines and skills assessment tools. Partner discussed the templates and content requirements and set deadlines for the upcoming tasks. New tasks were assigned and distributed among partners. In another session was discussed the Integrated online platform (Res 4). Special sessions were dedicated to the project dissemination activities and also to the project quality assurance. Partners were informed with the current results and the level of adherence to project indicators. The Quality assurance leader provided the consortium with recommendations and suggestions for improvements. The partner meeting finished with a summary of the decisions that were made and deadlines that were set for the new upcoming tasks.

Online training curriculum

This DigiWork online training methodology guide tries to be a comprehensive and innovative program that not only can help users to better adapt to the dynamic changes in the field of education, but also actively involves diverse parties in the process of developing effective training programs. It provides information about:

It provides information about:

- >> Key e-learning trend forecasts for the subsequent years
- >> Comparison of the DigComp Framework with the E-learning Trends and DigiWork project goals
- >> Explanation of DigiWork approach and methodology
- >> Structure and overview of DigiWork learning content including 18 modules, 6 learning paths.

The online training curriculum is available on the project website in English and all 6 languages of the project partners: Polish, Slovak, Latvian, Italian, Spanish, and Bulgarian.

Result 4

Integrated online platform for learning, collaboration and resource sharing

The integrated online platform will host the developing DigiWork learning content that covers topics and issues responding to the students' needs such as smart-working, energy savings, the environmental impact of production systems. The available **18 modules are divided in 6 learning paths** as follows:

Path 1: First and foremost: DATA

Path 2: Work-flow 4.0: Supply Chain Fundamentals

Path 3: How to Start from Scratch to Production 4.0

Path 4: Advanced Intelligent Manufacturing

Path 5: Industry 4.0: Benefits and Challenges

Path 6: User Interfaces and Interaction Design: the essentials.

In order to enjoy the learning experience you just have to create an Account and follow the courses with your own pace and progress. You have the opportunity to test your knowledge before and after the course and to receive an online certificate after achieving success of 85% correct answers on the exit tests.

Duration: 01.01.2022 – 31.12.2024

Project Ref. No: 2021-1-PL01-KA220-HED-000032182

Funded By: Erasmus+ Programme, Key Action 2: Strategic Partnerships
